How Google GLASS works

Why can you see a sharp image?

Infographic by M. Missfeldt
www.brille-kaufen.org

The main function is based on a mini projector.

Reality

Layer

A clever prism projects a layer over reality light.

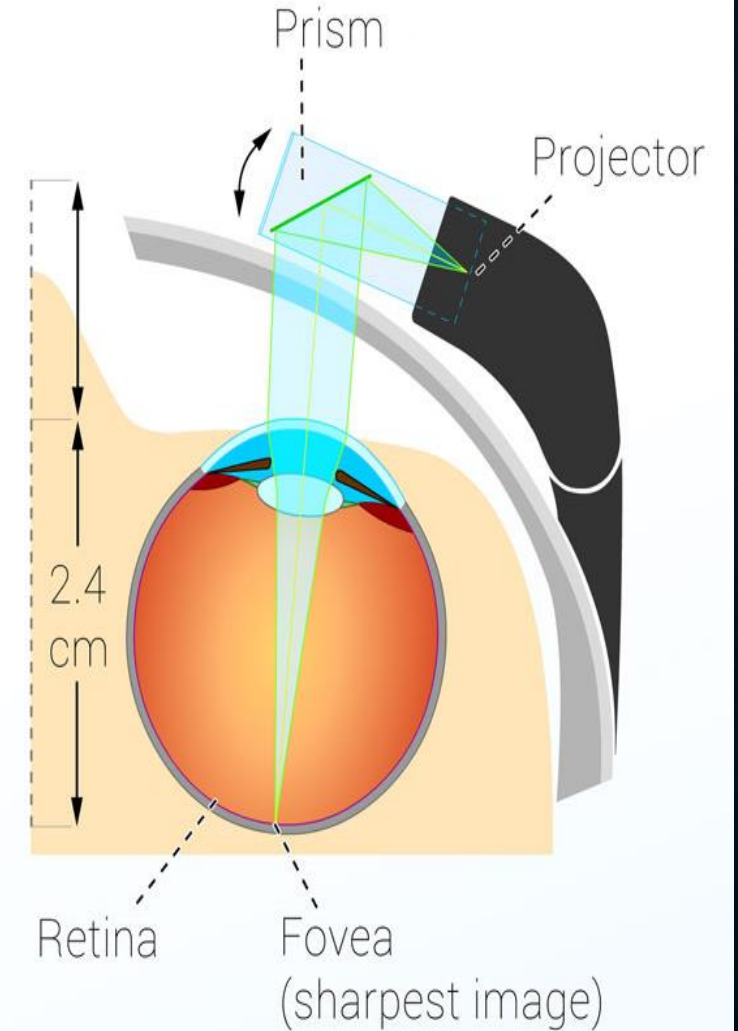

Challenge:
What about people
with normal glasses?

greater distance ->
not a glass look & feel

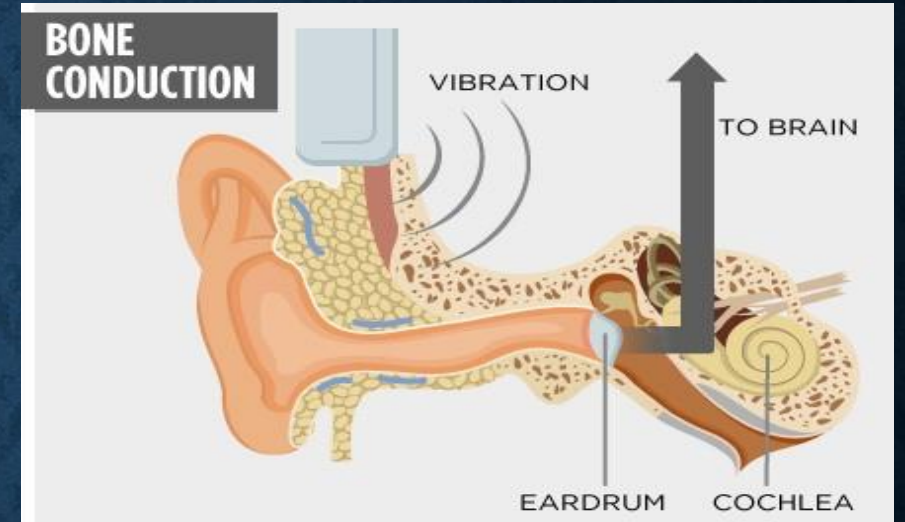

individual production
is much more
expensive

Conclusion:

Specifikat

Sistemi Operativ	Android 4.0.4 (Ice Cream Sandwich)
Bateria	570 mAh (Polimer Litiumi)
CPU	1.2 Ghz procesor
Kamera	Foto - 5 Mp Video – 720 p
Ekran	Prizmi projektorit (640 x 360 pixel)
Memoria	2GB (RAM)
Zëri	“Bone conduction”
Konektiviteti	Wi-Fi , Bluetooth, micro USB
